DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in the response of 8 December 2005.

In the Title:

The Title has been replaced with "In-plane switching liquid crystal display having nanometer scale roughness".

End of examiner's amendment.

Allowable Subject Matter

2. Claims 1, 5-8, 18, and 22 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the device of claims 1 and 18, in particular the additional limitation that the micro scattering layer includes a conductor and an insulator on the conductor, the insulator having a top surface with the nanometer scale

roughness (a term now clearly defined in the claims). This was previously indicated as allowable in the dependent claims 3 and 19; the limitations have been incorporated in the independent claims, so the independent claims 1 and 18 are now allowed, as are their dependent claims 5-8 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
